

Science Recommended Reading List

At Parklands Primary School, our vision is to create enthusiastic and motivated readers who possess a lifelong love for literature. We capitalise on opportunities to read for enjoyment across a range of text types and subjects. One area in which we promote this is science. During buddy reading, time has been used to delve further into our focus book, 'Stephen Hawking' shown below.

Focus book

Review by Alex Sarbu:

I urge you to read this book because it is all about the life of Stephen Hawking, atoms, the universe, galaxies, space and how life on earth started.

It is one to read.

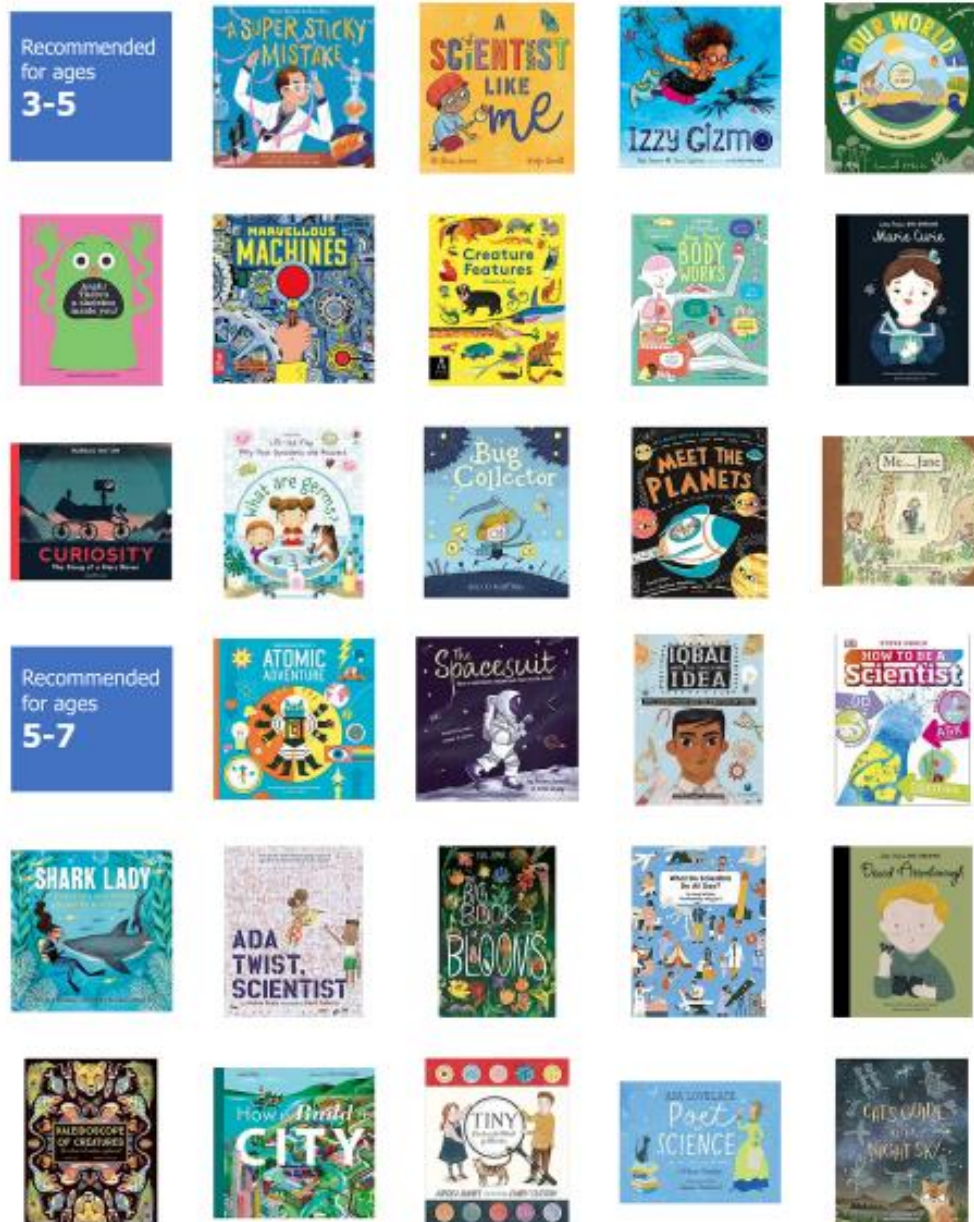

Below is a further recommended reading list for science:
